Hi Dante,

I saw other errors in the grant package as well, that I presume are Dietrick errors.
Maybe I should ask him for some percentage of his funding for proofing his submittals.
Haha.

How about next Wednesday, sometime between 2 and 4:30?

Thanks,
Jeryl

OMG! I think you are the first one to find those error!
Yes, we can chat about the overarching questions next week. You are a busy guy! Next week Wednesday would be best (anytime but 10a), as we have those calls with ARC on Tuesday and Thursday. Pick a time that works best for you and send me an invite.

Thanks, Dante.

A quick, cursory review of the grant approval letter reveals two errors -both references to YPT instead of WRPT, one instance in #1, and the other in #3 of the letter.
I will continue to review, but I have overarching questions about how this sampling fits in with stated RAOs and the RI process.

I think we will need to discuss, but I'm not sure I have any spare time this week -perhaps we can fit in a 1/2 hour discussion next week, either Tu, We or Th.

Thanks,
Jeryl

69k for the consultant, 15k for sampling supplies, 6k for analytical. This was the overall budget (see attached for further breakdown). The workplan tasks for the consultant included all document reviews and meetings, as well as compiling and summarizing historic data and doing the additional water sampling over time. This is funding for a 2 year period. See attached for specifics. Feel free to call to chat after reviewing.

That seems like a lot of money budgeted for as yet unknown work effort or stated objectives that would fit in with the current OU-7 RI.

I assume Dietrick will perform this work, and that's why the budget is so high?

Thanks,

Hey Jeryl,
Walker River Tribe asked to do some water sampling at the outfall of the Drain, where it enters the River.
We funded them but they haven't gotten anything going yet (no plans yet).

Subject: Question: Anaconda tribal grants

Hey Dante,

Harry just sent Greg a recap of Anaconda tribal support, via various grants.
I am confused about the last statement of his (see below), and wonder if you could clarify the meaning for me:

Email from Harry to Greg today:

"Anaconda Tribal Support Grants - Superfund

Yerington Paiute Tribe (\$590,664)
2010-2016: \$475,664

- * Cultural Assessment Grant covering 2010 to 2012 for \$125,854.
- * Site-wide Grant (OU1,3,4,8) covering 2010 until 2016 for a total of \$259,810,
- * OU-7 specific grant covering from 2015 until 2017 for \$90,000.

2017-2018: \$115,000

- * Site-wide Grant (OU1,3,4,8) (new award) for 2017 through 11/30/18 for \$75,000.
- * OU-7 specific grant extension for 2017 through 9/30/18 for \$40,000.

Walker River Paiute Tribe (\$196,000)
09/01/2010-12/31/2016: \$40,000
05/01/2017-03/31/2019: \$156,000

Walker River has only recently become more heavily involved in the project with the start of the OU7 Wabuska Drain RI. The most recent award includes sharing the cost of the consultant with YPT, and doing some sampling in OU7."

Was his statement regarding WRPT grant support mean contractor support to WRPT, rather than YPT?
As far as I know WRPT has not asked to do any sampling, only YPT, and I thought their contractor support was related to NRD, not OU-7 RI work.

Thanks,
Jeryl
